Located in Ashland, Oregon, In 2005, Caldera became the first craft brewery on the West Coast to brew and can its own beer, helping to start a revolution. Caldera has been dedicated to being green before green was cool. The benefits of cans compared to bottles are that they eliminate light, have less oxidation, are lighter to carry, they don't break as easily, are 100% recyclable, plus they chill quicker and stay cold longer, making them perfect for rafting, camping, fishing and skiing.
